ROUND

It is the agility and stability that we cherish;
It is the craftsmanship and ingenuity that we always hold dear.

A gentleman never casts away his initial heart of craftsmanship while accomplishing his cause.

Carpenters use line marker to craft classic masterpieces; Ingenuity is the ruler of gentleman to perfection. Craftsmanship hidden in every detail of a work of art. It seems to be found in nowhere, but there are traces to follow. For 186 days of production with 79 processes including thousands of times of manual polishing, from the straight line to the corner, each detail of Round series blossomed with the handcraft beauty that can never be achieved by mechanical production.

A gentleman acts in a modest and refined manner

A gentleman shows the tenderness in personality as well as the deliberation in dealing with changing situations. Round series integrates elements of uprightness and roundness, turning hard-edges into modesty and humbleness. Smooth touch obtained from manual polishing sends out elegance given by time.

Master carpenter's ruler is used to meet natural law with natural walnut.

The desktop is 7.8-foot in length, which means good fortune in the business development;
 The desktop is 3.3-foot in width, which means good fortune in the communication and negotiation;
 The arc edge of the desktop is 0.8-feet in width, which means good fortune in job promotion.

You can find natural color matches in Round series. The classical color of the earth reminds you of the charm and freshness of mountains and rivers in cloudy moist, making you feel its elegance and vintage. The low-saturated neutral color is low-key and calm, which allows you to find the inner peace to relax and broaden your vision.

45° Side Vision Presents Uprightness and Roundness.

A masterpiece with excellent aesthetics is expensive not only in materials and techniques, but more in strict size and perfect proportion. Round series follows the golden ratio with Luban ruler used as the rope ink.

25 years of experience represents exquisite craftsmanship. Auspicious numbers are used to bring more good wishes to light your mood in work.

Under the Desk Top, A Whole New Vision.

Grafting old crafts with new technology, in addition to flowing lines and staggered structures, both internal and external functional configuration are strengthened.

Hidden routing system with multiple ports for telephones, HDMI, and USB, sufficient for power charging for different devices.

The tabletop includes a wireless charging area, allowing you to power up your devices effortlessly.

New Findings Inside the Side Cabinet.

Our side cabinets feature built-in cable holes, making it easy to connect devices while keeping the space neat and tidy.

The combination of walnut and leather presents elevated taste. Designed with a maximum 135° open angle and equipped with Hettich Hinges, easy to take and place objects.

Equipped with a rotating combination lock, your sensitive information and precious items are well-protected.

Leather storage drawer with patterned stitching on the surface delivers a stereo sense. The handleless design creates a minimalist visual experience.

**As nature progresses with evolution,
a gentleman absorbs from all and obtain the best.**

Good design speaks in unobtrusive details.
Turn complexity into conciseness, ingenuity is hidden everywhere.
Creation is made according to the original texture of the wood without any complicated carvings.
It exudes the quaint texture after years of precipitation.
Craftsmanship is not only a matter of time, but a concept in terms of attitude, cognition, and value.
Calm down and breathe, hundreds of times of calibration and adjustment ensure no single error exists.
Edges of the Cabinet door have a 45° inward cutting angle, uniformly merged with the cabinet surface.
The large capacity storage space is sufficient for your daily needs.
The ingenious combination of square and circle and the fusion of lines and faces endow the space with prudent and elegant atmosphere.
—It is the near-perfect craftsmanship that gives the product a chance to get the best quality.

**As nature progresses in all aspects,
a gentleman keeps all blessings in his possess.**

The stage of life is filled with ups and downs, as a director and an actor, one should interpret each character with heart. Whether it's a suit, or a jacket, or a t-shirt, you can fit it in the multi-purpose wardrobe in Round series, switching between different identities.

A gentleman develops wisdom in hold and elegance in mold.

Round file cabinet adopts a tall waist line design between the top board and cabinet body. The universal single-shelf height is suitable for business document, tea spot and snacks, and stationeries. All you can find can be well placed.

Graphical representation of Round configuration

**As nature progresses irreversibly,
a gentleman makes decisions with determination.**

In a world of constant change, see the bigger picture and stay ahead of the curve.
Plan carefully and strike decisively to secure victory.
The interplay of curves and straight lines creates a striking design.
The recessed leg design allows for unrestricted conversation.

Smooth Open and Close of the Wiring Box.

Our all-in-one cable box design ensures safe and seamless cable management. The 45° angled edges and base make opening smooth and silent.

Strength and Elegance Combined

The unique "フ"-shaped legs are inspired by calligraphy, embodying both strength and grace. The 3D wood veneer offers a fine texture and warm touch, while the rounded edges reflect a generous and open spirit.

**As nature progresses with mutual effect,
a gentleman consider harmony as the outcome
of cooperation.**

With inheritance of the simplicity and elegance of eastern philosophy,
We adopts these valued elements into design of Round series.
The desktop is round and mellow like a dome,
The desk feet is tapered to obtain a concise look without sacrifice of load bearing capability.
The cloud element on the desk echoes with that on the conference table.
Further matching with the high-back chair in Round series, the desk-table-chair set endow the space with a sense of order.

The tabletop features a fan-shaped design that is both classic and elegant. The 360° rotating tray is perfect for holding stationery and snacks, with built-in power outlets to keep meetings organized and efficient.

Grace in Every Detail

A gentleman acts with agility and flexibility, and support from every angle.

Imperturbability is a gift from experiencing life; Unflappable amid changes is the practice of wisdom; Round series office chair is designed with a stereo waistline and 15° tilt angle, providing moderate sitting stiffness and flexible support, as a gentleman's temperament of agility and flexibility.

A gentleman must have a broad mind to encounter greatness.

With tenderness in mind to embrace every setback and gift of life.
The mind is tempered with more inner peace after seeing the world.
There was less sharpness and tension, and less frivolousness and angry sighing.
Like the Round series sofa which adopts larchwood over 50 years to shape the backframe:
Never show off its strength, but has the courage to stand up from countless failures;
660mm-wide water-based Nappa leather base give you infinite comfort.
Never demand integration, but have an open mind to accept other voices.
